

Acme Corporation

Annual Report 2024

Executive Summary

Acme Corporation delivered strong performance in fiscal year 2024, with revenue growing 12% year over year driven by expansion in the enterprise software segment. Operating margins improved due to disciplined cost management across all business units. The board approved a renewed share buyback program for fiscal year 2025.

Key Highlights

Total revenue reached \$482 million, compared to \$430 million in fiscal 2023.
Net profit for the year was \$58.3 million, up from \$46.1 million the prior year.
Customer count grew to 3,400 enterprise accounts across 22 countries.
The company opened a new research and development center in Austin, Texas in March 2024.

Financial Results

The table below summarizes consolidated financial results for fiscal years 2022 through 2024.

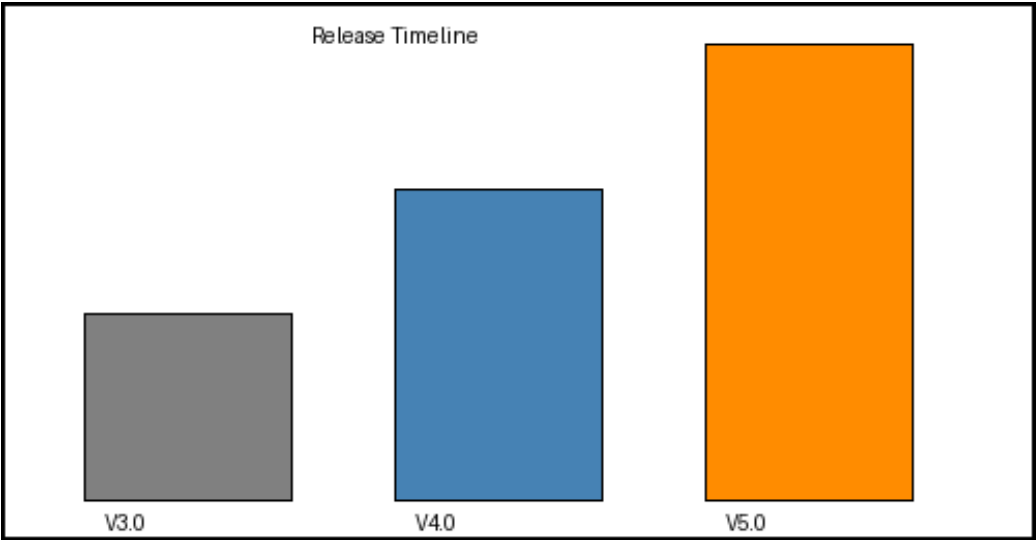

Metric	FY2022	FY2023	FY2024
Revenue (\$M)	378.2	430.4	482.1
Net Profit (\$M)	38.9	46.1	58.3
Operating Margin	14.1%	15.0%	16.8%

Segment Performance

The Enterprise Software segment contributed 68% of total revenue in fiscal 2024, up from 61% in fiscal 2023. The Professional Services segment grew more slowly, reflecting a strategic shift toward higher-margin subscription offerings. Management expects this mix shift to continue into fiscal 2025.

Product Roadmap

Figure 1 below illustrates the planned release cadence for the next three major product versions. Acme plans to ship Version 5.0 in Q2 2025, introducing the new AI-assisted analytics module first previewed at the fiscal 2024 investor day.

Conclusion

Fiscal 2024 was a year of disciplined growth for Acme Corporation. Management remains confident in the company's ability to sustain double-digit revenue growth while continuing to invest in research and development and expanding its global customer base.
